LEAFWARE

Mother nature provides us with naturally fallen palm leaves. We harvest, sanitize and create our hand crafted tableware from nature. No tree is ever harmed or cut. We use only the fallen leaves.

Leafware® the leading manufacture of single-use Palm Leaf Dinnerware, known for the highest quality. We own and operate our facilities in several countries. We are committed to providing a consistent supply of eco-conscious dinnerware-tableware.

Beyond appealing to your guest and their green sensibilities. Leafware® offers several benefits:

Biodegradable: The quality of a material to decompose fully, returning all parts back to nature.

Compostable: Palm leaves are plant based material and will decompose fully and naturally with time.

Disposable: Allows you to provide your guest with a new bowl, plate and cutlery.

Eco-Friendly: Striving to reduce our carbon footprint, while creating innovative tableware.

Sustainability: A continued state of improvement today and for our future.

WOODEN CUTLERIES

Leafware® utensils are manufactured from 100% birchwood. They contain no dyes, bleaches, or glazes and are completely compostable. Our birchwood cutlery eliminates landfill waste, unlike bio plastics we do not require the use of a commercial composter. When it comes to slicing and dicing, our cutlery works.

As a durable alternative, Bamboo Studio's line of bamboo ware items retain all the strength and beauty of bamboo, with the added benefits of sustainability. Designed from the ground up to be as eco-friendly as possible, we begin by taking the fiber of bamboo plants five years or older, grinding it into fine powder. Utilizing a proprietary process, the material is molded into sturdy, long-lasting dinnerware.
