

NEW

Veda™ Reusable Take-Out Containers

- » Made with heavyweight polypropylene for durability
- » Microwavable and freezable
- » Snapping tab for secure closure
- » Offered in standard foodservice clamshell sizes
- » NSF Certified to meet food protection and sanitation standards
- » Ecolab Ware tested up to 1,000 washes
- » Proprietary barcode tracking and collection technology integrated with leading campus meal plan systems like Atrium and CBORD
- » Real-time collection data for containers paired with OZZI® collection machines
- » Take back program to recycle containers at the end of their useful lives

How does a reusable take-out container system work?

Containers

It all starts with containers that are specifically designed for the rigors of reuse programs. Veda containers are NSF Certified to meet food protection and sanitation standards, and are ECOLAB ware tested up to 1,000 washes. Custom embossment and color options are available as well.

Collection

The best way to ensure high collection rates is to pair Veda containers with the OZZI collection machine – a “smart” collection receptacle that scans containers and credits the user via token or credit for their return. A less “techy” version of the machine called the “Drop ‘N Go” is available as well. Both come with a cart designed to help with wash logistics.

Tracking

Every Veda container comes equipped with proprietary barcode tracking and collection technology created by our partner, OZZI, that integrates with leading campus meal plan systems like Atrium and C BORD.

Washing

Once Veda containers are collected, they are either washed on-site or transported to an off-site washing hub, typically via partnership with a “ware wash” service provider.

Reporting

When Veda containers are used with the OZZI machine, collection data is available free of charge and typically delivered on a monthly basis. Some programs have achieved as high as 97% collection rates!

Use Veda containers with existing dishware collection stations or get collection stats and tracking information with OZZI® collection machines.

OZZI. Simply Reusable.
